A UNIQUE OPPORTUNITY

Creative education is a vital part of Garrison Art Center's mission, and in fact, the Art Center was founded 48 years ago by a group of parents for the purpose of supplementing their childrens' education. Since then our staff and teachers have continued to build and improve programming, while assuring that class size remain small and personal.

Our 25+ year-old Summer Arts on the Hudson is praised by parents as a meaningful and fun educational experience and touted as one of the best values in the Hudson Valley for both content and cost.

A UNIQUE PLACE

Our vast backyard on the edge of the Hudson River is nothing short of inspiring. It gives teachers the freedom to create curriculum that requires a large area, while offering kids unmatched outdoor fun. In addition, the historic connection to the Hudson River School of Painting adds to the enjoyment of regional art history.

Our 3-week curriculum is designed to build on knowledge, to serve students of all talents and interests and to allow children extended time periods needed to complete involved projects.

Our faculty is comprised of teaching artists with extensive academic experience, varied specialties and a commitment to developing a plan that frees the creativity which exists within all children.

Our entire 5,000 square-foot facility is devoted to the students and includes a printmaking studio where most of our students experience making their very first print and a large clay studio where kids see their creations come to life.

FINANCIAL ASSISTANCE

Garrison Art Center remains committed to keeping the cost of our programs affordable, plus we are able to offer assistance to families in need through the Gillette Scholarship Fund. Application is simple and confidential. Please contact Executive Director Carinda Swann to learn more.
